

The screenshot shows a web interface with a blue header bar. On the left is the NEE EDHUB logo, and to its right is the text "Student Learning, Growth & Development". Below the header is a light gray area. In the center, there is a light blue rectangular box. Inside this box, on the left, is a smaller white box with a blue border containing the text "Student Learning, Growth & Development". To the right of this white box, within the light blue box, is the question "Which Technology Tools Can Be Used to Support Students With Reading Disorders?". Below the question, on the right side of the light blue box, is a blue button with the word "Continue" and a right-pointing arrow.

Slide 2

NEE EDHUB Student Learning, Growth & Development

Technology can be a huge help for students with dyslexia. When might a student be given a specific piece of assistive technology (device or software) by the school district?

Slide 3

## Student Learning, Growth & Development

Describe the ways in which technology is currently used by you or your students to provide support for struggling readers.

Slide 4

## Student Learning, Growth & Development

What features might be adjusted in the settings of the devices used in your classroom to provide support for students with dyslexia?

Slide 5

## Student Learning, Growth & Development

Which extensions exist on the devices used in your classroom that could be helpful for your students who have dyslexia or other reading disorders?

Slide 6

## Student Learning, Growth & Development

Select two or three of the apps mentioned in the resource. Tell how they could be helpful to the students in your classroom who struggle with reading.

Slide 7

## Student Learning, Growth & Development

Select a few of the Google add-ons you would like to explore. How might they benefit the students in your classroom?

Slide 8

## Student Learning, Growth & Development

The use of ebooks in the classroom, whether authored by the teacher or by students, can offer many benefits. Identify a few ways you would consider using ebooks in your classroom.

Task

## Student Learning, Growth & Development

Consider the technology tools that were presented in the activity and select four to six you would like to learn more about. Investigate the tools on your list and try them out in your classroom. When your trial is complete, record the results of your experience in using the tools.
